I have seen a farmer pass fifty times by a breach in his fence and never stop to aright it, always putting it off till another day, until the greater part of his crop was destroyed.

I have seen a farmer put up his stock fodder in so careless a manner that the first wind would blow down the stacks; in which condition they would remain until the fodder was so spoiled that his half-starved cattle would refuse to eat it, and he would wonder why his cattle were so much poorer than his neighbors.

I have seen a farmer who took great care of his fodder, but in feeding it to his cattle would let in the hogs, or not separate them from the cattle, and before they could masticate balf their allowance. the remainder was so rooted about, and so filthy that they must be more than half starved to eat it. He, too, is one of the "wondering" class.

I have seen a farmer feed his horses in a hollow tree, with both ends open, and a hole in the middle. 'Oh," says he "the pigs will get what falls out." Yet, strange to tell, he never could account for his horses being always so p or.

I have seen a farmer who seldom went where his boys were plowing, and when he did, it was the same thing; for they would merely skim the earth, out and cover-and "wonder."

I have seen a farmer (and he is a good rough carpenter,) who had not a door to his stables; he would stop the entrance with rails laid crosswise, leaving a hole at the bottom to creep in and out when feeding. The labor lost during the year in pulling down and putting up this abominable substitute, applied to the making of doors, would have furnished him for a lifetime. He is always "wondering" how some folks have time to do such

I have seen a farmer, after all his labor and expense in growing, cutting, stacking, spreading, dew-rooting, and taking up his hemp, throw hundreds of pounds in the corners of the fence, to make room for another crop, again to be destroyed, in part like the preceding one.

I have seen a farmer richer than his neighbors, and to their great detriment, lose as much time in borrowing and returning the various implements of husbandry, as would pay for them in two years, if time so spent had been profitably employed .- Franklin Farmer.

Things I Have Seen.

A compound remedy, designed to be the most effectual Allerative that can be made. It is a concentrated extract of Para Sarraparilla. koees, winter after winter, through manue, in going to his stable, when for years his garden has been unproductive for the want of an article so much in his way in the yard.

I have seen a farmer pass fifty times by a breach in his fence and never stop to citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following

omplaints: -Complaints: —
Scropula and Scropulous Complaints,
Emptions and Emptive Diseases, Ulcers,
Propage, Bloccines, Temors, Salt Rubers,
Scald Head, Syphilis and Syphilatic Ap-PECTIONS, MERCURIAL DISEASE, DROPSY, NEC-RALGIA QU'TIC DOCLOUREUX, DESILITY, DYS-DEPSIA AND INDIGESTION, ENTSIPELAS, ROSE ON ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF тик Вьоов.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timeby expulsion of them many rankling disorders are mipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pumples, eruptions, or sores; cleause it when you find it is ob-structed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this palulum of life disordered, there can be no lasting health. Sooner or later something

must go wrong, and the great machinery of life is disordered or overthrown. Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it. for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla,

or any thing else. or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart
of Extract of Sarsaparilla for one dollar. Most
of these have been frauds upon the sick, for
they not only contain little, if any, Sarsaparilla, but often no curative properties whatevcr. If nee, bitter and painful disappointment
has followed the use of the various extracts of
Sarsanarilla which flood the market, until the has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete cradication from the system, the remedy should be judiciously taken according to directions or

HOSTETTER'S STOMACH BITTERS.

The preprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and efficens generally of the United States, because the article has artained a repu-tation heretofore unknown. A few facts upon tation herefore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bitters for the last year amounted to over a half-million bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the preparamedicinal properties contained in the preparaphysicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give restimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself. destined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them mildly but powerfully, and soon restores them to a condition essential to the healthy discharge

to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Ditters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and conventing senerally. We have the exiand rejuvenating generally. We have the evi-dence of thousands of aged men and women who have experienced the benefit of using this who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternit errive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recupe-rate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigora-tors that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase

of hodily strength.

All those persons, to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhosa, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hos-tetter's Celebrated Stomach Bitters a trial. CAUTION.—We essution the public against using any of the many imitations or counter-feits, but ask for HOSTETTER'S CRIEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and

observe that our autograph signature is on the label. Frepared and sold by HOSTETTER & SMITH. Pittsburgh, Pa., and sold by all druggists, grocers, and dealers generally throughout the United States, South America, and Germany.

CANDINAVIAN REMEDIES THEN DR. ROBACE, the celebrated Sweds?

Whysician, introduced his Blood Purifier and Riond Pills in the United States, he set forth in plain language their curative properties. This was years go. The task of recommending them has aince been taken out of his hands. Enlightened men whose character for sound judgment and philosophy, gives their opinions weight in the community, men who observe, reflect, and make "assurance doubly sure," before they decide—are everywhere approving and urging the use of these wonderful Preparations. All who confident the wisdom and honesty of this class, or who shose to invostigate for themselves are now of one mind on this important subject.

The evidence in the possession of Dr. Hoback, which is at all times accessible to the public, establishes the following
